

CLAIMS

I claim:

1. A storage page comprising: a back sheet having a first side and a second side, a transparent first cover sheet, in which both the back sheet and first cover sheet are substantially rectangular and have substantially parallel long edges, parallel short edges, and a width and a height, the first cover sheet is attached to the first side of the back sheet by an attachment means which forms attachment lines, the attachment lines forming one or more pockets between the first cover sheet and the first side of the back sheet, the pockets being sized to hold, at the user's option, either a standard size photograph or a standard size compact disc, the first cover sheet having a slit for each pocket to allow insertion of a compact disc or photograph into each pocket, where each slit divides the first cover sheet into a large cover portion and a small cover portion for each pocket, and where each pocket has a support line which has a gap, the gap sized to allow a compact disc to be positioned on either side of the support line by projecting through the gap.
2. The storage page of Claim 1 in which a second cover sheet is attached to the second side of the back sheet to form one or more pockets between the second side of the back sheet and the second cover sheet, and the second cover sheet having a slit for each pocket to allow insertion of a compact disc or photograph into each pocket, and where each slit divides the second cover sheet into a large cover portion and a small cover portion for each pocket.
3. The storage page of Claim 2 in which the attachment means is sonic welding.
4. The storage page of Claim 2 in which the attachment means is heat welding.
5. The storage page of Claim 2 in which the attachment means is hot melt glue.
6. The storage page of Claim 2 having a memo area.

7. The storage page of Claim 6 in which the memo area has a card for displaying indicia.
8. The storage page of Claim 2 in which all pockets are sized approximately 4.5 inches by 6.16 inches.
9. The storage page of Claim 2 in which all pockets are sized approximately 4.5 inches by 7.16 inches.
10. The storage page of Claim 2 in which the support line has angled portions adjacent to the gap, which angled portions are at an angle to the support line.
11. The storage page of Claim 1 in which one or more of the small cover portions are substantially rectangular and are smaller than one-half inch in their narrow dimension.
12. The storage page of Claim 2 in which one or more of the small cover portions are substantially rectangular and are smaller than one-half inch in their narrow dimension.
